# IP1000V2 Software Update
# For IP1000v2
# System Software Version 2.4.30.8
# Date: 5/4/2010

**1.0    Now Ships with 1.0.7.8 IP550 and 1.0.0.8 IP120 Firmware files.**

**2.0    Support for InGenius Connector**
- InGenius now works with the IP1000v2.

**3.0    Support for Call Manager R2 Added**
- The IP1000v2 will work with Call Manager R2 versions later than 2.0.0.3 ( to be released 5/7/2010)

**4.0    Bugs Fixed**
- Remote IP is now set properly on Aastra phones configured remotely.  (Issue introduced in 2.4.30.7)
- SIP ACL has been removed.

**5.0    Known Issues**
- Cannot enable Set Old and Delete After simultaneously or messages will disappear.  It does not make sense to enable both of these options but we will make them mutually exclusive in a future release.
- Voicemail size used summary is currently inaccurate.  Will be fixed in future update.
- Outbound transfer capability is sometimes affected by volume properties of analog lines.
